Dear Scott,

The Sound Pillows are a huge success!! As you know, the Darlene Bishop Home for Life is a residential facility for women struggling from drug/alcohol addiction, abuse, crisis pregnancies and homelessness. We can house 28 women.

Having never heard about the Sound Pillow, we were a bit surprised when a resident's father shared that we were getting a free shipment of 20. Upon receiving the pillows, the ladies were excited and immediately plugged in their CD's. The response has been quite positive! One lady stated that she finds comfort from past traumatic experiences by listening to Christian music through her pillow.

Thank you for sharing your product with us. Your compassion and generosity are greatly appreciated. I pray that you will be successful in helping many other men and women with the Sound Pillow.

Sincerely,

Beth Ward  
Program Director
